ABOUT THE GREENVILLE BEAUTIFICATION COMMITTEE

The Greenville Beautification Committee is a non-partisan group made up of leaders and members from your local community. In partnership with the Town of Greenville and other community organizations, the Committee seeks to enhance Greenville spaces through various public initiatives.

Quarterly updates on Committee work will be available at www.gbcworks.com

All members of Greenville’s community are invited to step forward with ideas, suggestions, talents, machinery or expertise that may be helpful to a wide range of efforts, such as enhancements to our parks and recreation facilities.

THANKS TO OUR PARTNERS AND FRIENDS

The Greenville Beautification Committee thanks the Greene County Industrial Development Agency, The Greene County Planning and Economic Development Agency, the Greenville Citizens Park Committee (now called Community Partners) and the Town of Greenville for their continued support in this ambitious endeavor. We also thank those who have already given support through 2009 GBC fundraisers and hope for your continued support in 2010.

EVERY DOLLAR AND PENNY COUNTS !

Whatever is affordable, any contribution will make all the difference when combined with those of your friends and neighbors. 100% of your donations goes towards projects for improving your community. With your input and donations, we can complete projects that enrich all of the community. We cannot hope for success without your ideas, effort and help.

GET INVOLVED

GREETINGS FROM THE BEAUTIFICATION COMMITTEE

As you may have heard, new decorative street lighting is coming to Greenville! Last winter the Greenville Beautification Committee, the Town of Greenville, and the Greene County IDA agreed to fund lamp poles for installation in front of our town hall. Town Supervisor Paul Macko and County Legislator Kevin Lewis also pledged to purchase poles on behalf of their families. Each decorative pole includes arms for banners and flower baskets.

These new light poles are part of a broad initiative to enhance the streets and public spaces of our hamlet. The Committee is also creating a program to add benches, planters and banner signs, along with other lighting enhancements to the intersection of Routes 32 and 81. All items are chosen with visual impact and durability in mind.

WHY THIS MATTERS FOR GREENVILLE

We need to strengthen our Town's competitive position to attract and retain businesses. Our Town's prosperity and health depends upon bringing more jobs and services to the local area. Enhancing the cohesive appearance and function of our public spaces is effective towards achieving this goal.

HOW YOU MAKE A DIFFERENCE

IDA's contribution is a starting investment, but without a community-wide effort it will not be enough. Your help completes what needs to be done to make our Greenville a vibrant destination for new business and residents.

Whether you are a business or individual, please join us in making Greenville a home for our great community. **Every donation counts, no matter the size.**
